Book Description

Title: Problems In Hydraulics

Author: R. S. Paradise

Publisher: Bleakie & Son Ltd, London

Edition: 3

Year: 1953

ISBN: 978-1577664550

Scilab numbering policy used in this document and the relation to the above book.

Exa Example (Solved example)

Eqn Equation (Particular equation of the above book)

AP Appendix to Example(Scilab Code that is an Appednix to a particular Example of the above book)

For example, Exa 3.51 means solved example 3.51 of this book. Sec 2.3 means a scilab code whose theory is explained in Section 2.3 of the book.

Contents

List of Scilab Codes	4
1 HydroStatistics	8
2 EQUILIBRIUM OF FLOATING BODIES	15
3 Flow in Channels	18
4 Orifices and Notches	22
5 Orifices and Notches	26
6 Flow in pipes	32
7 Flow Under Varying Head	43
8 Viscosity and Viscous Flow	49
9 Impact Of Jets	53
10 Hydraulic Prime Movers	58
11 Pumping Machinery	67
12 Dimensional and Model Analysis	79
13 Miscellaneous Problems	83
