Book Description

Title: Electronic Circuits

Author: P. Raja

Publisher: Umesh Publications, Darya Ganj, New Delhi

Edition: 2

Year: 2012

ISBN: 978-93-8017613-0

Scilab numbering policy used in this document and the relation to the above book.

Exa Example (Solved example)

Eqn Equation (Particular equation of the above book)

AP Appendix to Example(Scilab Code that is an Appednix to a particular Example of the above book)

For example, Exa 3.51 means solved example 3.51 of this book. Sec 2.3 means a scilab code whose theory is explained in Section 2.3 of the book.
